

MOTHER SEES THAW'S WIFE WITH DISDAIN.

She Sits in Court Ignored by Husband's Family During His Murder Trial.

Seven Jurors Are Selected After Much Wrangling and Exhausting More Than Half the Special Panel. Talesmen Are Expert With Excuses—Abhorrence of Duty in Case Grows—Prisoner Is Cheerful.

[BY DIRECT WIRE TO THE TIMES.]

HARRY K. THAW'S mother coldly ignores her son's wife.

Countess of Tarmouth is absent from trial of her brother on account of illness.

Seven talesmen are selected for jury.

Counsel on both sides expect to begin actual trial Monday or Tuesday.

Prisoner shows more interest in proceedings.

Pathetic feature of case is Mrs. Evelyn Nesbit Thaw. Her beauty faded, her statuesque lines marred, she sits apart from her husband's family, comforted only by glances from Thaw and the friendship of a sister chorus girl.

Many talesmen knew Stanford White, the slain architect.

NEW YORK, Jan. 25.—[Exclusive Dispatch.] There were renewed fears today that, after all, the special panel of 200 talesmen may come perniciously near to depletion before a complete jury can be obtained for the trial of Harry K. Thaw.

Examination of no less than fifty cases during the past week resulted in examinations of only two jurors in the jury box, making the number now sworn seven of the necessary twelve. To obtain those seven, 100, or one more than half the entire panel of 200 have now been disposed of, leaving ninety-nine eligibles from whom must be found the remaining five jurors before the trial can proceed in its next phase.

This would appear to be a comfortable margin if the ratio of the first two trial days had been maintained today, but it was not.

On Wednesday and Thursday there were fifty talesmen examined, and from their number were obtained five jurors, or an average of one in ten.

ABOR JURY DUTY.

That is an intense and increasing burden among the talesmen to submit themselves to the answers and disastrous qualifications of jury duty in this case, as witness.

Harry Thaw's mother was again in court today from first to last, looking calm, strong and grave, despite her slight indisposition of the previous day. Close beside and assiduous in her attentions to the silver-haired matron, widow, was her daughter, Mary, George's widow.

Between them and the two smaller women at the other end of the line composing the family party was left a vacant chair. The two smaller women, Mrs. Evelyn Nesbit Thaw and her inseparable companion, Mrs. Mayme, formerly of the Weber & Fields chorus.

THAT VACANT CHAIR.

The vacant chair was ostensibly that reserved for the Countess of Tarmouth, but she did not attend court today with her mother, and has not appeared since the opening day of the trial.

Despite the Countess's absence and the fact that her mother and sister did not expect her, Harry Thaw's wife made no move to fill the gap between the two sections of the little party, nor did Harry Thaw's mother and his wife, Mrs. Evelyn Nesbit Thaw, and his inseparable companion, Mrs. Mayme, sit down in the thronged courtroom, remained like a barrier to closer communion.

Observation of such incidents as these soon gave color to the renewing reports that a serious breach had occurred between the blood relatives of Harry Thaw on the one hand and his wife and her companion on the other.

Members of the legal staff of counsel made diplomatic demands that any such breach had occurred, but the report gained wide credence nevertheless.

NEW JURORS.

One of the new jurors obtained today is Harold R. Fair, a printer and publisher.

The second new juror is Malcolm S. Fisher, a dealer in underwear.

His panel as it grows impresses the followers of the case more and more favorably.

Excuses framed by the talesmen to avoid jury duty in the case are growing more varied each day. Man after man declared that his opinion as to the guilt or innocence of the accused was so firmly fixed as to admit of no change, by reason of any testimony that might be adduced.

District Atty. Jerome tried to convince the talesmen that he needed their services before a court, but his efforts were not the same as a sworn testimony before a court, but his efforts were generally unsuccessful and challenges for cause were sustained by the court.

One talesman was peremptorily rejected. The State called in a talesman named Nesbit, who stated that he

THINKS NOT OF VENGEANCE.

(BY ASSOCIATED PRESS—A.M.) PITTSBURGH, Jan. 25.— Interviews appeared in two afternoon papers today with Mrs. Charles J. Holman, mother of Mrs. Evelyn Thaw, in which Mrs. Holman is quoted as saying:

"I wish you would deny that I am seeking vengeance. Never had such a thought entered my mind."

To the Associated Press, Mrs. Holman asserted that she had issued no statement, but added that she had no intention of going to New York, nor had she thought of vengeance.

was in no way related to Mrs. Evelyn Nesbit Thaw, wife of the defendant.

The defense used two peremptory challenges, one to relieve from duty Harry M. Fletcher, who declared that while he would earn an opinion on the box he had no right to cast it unless upon hearing the evidence, and render a fair and impartial verdict.

The defense challenged Fletcher in their own right only after Judge Fitzgerald had overruled a challenge because the second peremptory challenge by the defense was directed against S. N. Levy, a tobacco dealer.

Harry Thaw seemed much more accustomed to the courtroom atmosphere and for the first time gave instant answers to questions put to him by the District Attorney or counsel for the defendant.

Countess of Tarmouth was informed today that Harry C. Harvey, the fifth juror, had acted as a juror in the case of which Edward Peckars was convicted of murder in the first degree. Peckars' plea was insanity and several alienists declared that he was mentally unbalanced when he murdered a woman from whom he had rented rooms. The verdict was guilty and Peckars was sentenced to death.

Daniel O'Reilly or counsel for Thaw was awaiting the trial today concerning Juror Harvey.

"We went upon the assumption that a man who has voted to put a man to death on one occasion will never vote for the execution of another man. We wanted him up on the jury," Mr. Harvey said just as the trial began.

It was proven before Gov. Higgins that he was insane, and the Governor

said he would grant a reprieve.

The first talesman today was Walter M. Jackson, a real estate broker, who was chosen on a challenge by the defense, when he declared that he entertained certain prejudices which might make him a partial juror.

Ashley C. Jennings, a lawyer, and Charles D. Hart, a chemist, M. Levy and H. Simon were examined and excused by consent.

Harold R. Fair, a printer, 35 years old, was chosen as the sixth juror in the Thaw case.

Malcolm S. Fraser, a salesman, examined, was chosen as the seventh juror in the Thaw case.

MADRIZ, Jan. 25.—With the Liberal
Ministries worked in eighteen months
owing to the irreconcilable differences
between the leaders, King Alfonso today,
decided that he had no alternative
except to recall Señor Maura, ex-prime minister.
The religious issue has been the root of all
dissensions, ex-Prime Ministers Riose,
and Fernández Núñez, and the clericalists
believe that Spain is not ready for a radical
change in the church generally, upon which
the king has insisted.

Opposition was devoted to one of
the resolutions reported which declared
that the congress was "with the
President in regard to the releasing of
occupied public lands" and in favor
of the Bank of Spain for that purpose,
and it was laid on the table.

The resolutions recommended the work
of the United States Department of
Agriculture and urged that demonstration
farmers be established by the
United States and also that
various legislatures and Congress appropriate
funds for carrying out experiments
in dry farming.

WASHINGTON, Jan. 25.—After an extended conference at the White House, it was decided to postpone to next week the bid of Oliver & Bangs, who proposed to complete the construction of the Panama Canal for \$1.75 per cent. of the total estimated cost, in favor of Anson M. Bangs of New York City, who is concerned. While no official statement was given out at the White House, it can be authoritatively stated that if William J. Oliver of Knoxville, Tenn., can enter into a satisfactory arrangement with some other contractor who is financially responsible, he will be given the contract for the construction of the canal.

The McArthur-Gillespie Company of New York, whose bid was 12.5 per cent., were represented at the conference, leads many of the interested parties to believe that a combination may be formed between the two Oliver's. It is known that the McArthur-Gillespie syndicate has convinced the President and Secretary Taft of its financial responsibility, and after a most thorough investigation, the Commission has given its official satisfaction that Oliver is able to carry out his end of the agreement.

There would have been no question as to awarding the contract to Oliver & Bangs had the commission presented by Bangs gone as subcontractor to the officials as those furnished by Oliver.

MAKES TAKE A PARTNER.

The decision reached at the White House, however, means that Oliver will have a chance to take another contractor into partnership with him whose financial responsibility meets the satisfaction of the government. The canal commission, with the requirement met, will not undertake to make it to him who this contractor shall be.

The question of selecting all bids was discussed at the Cabinet meeting, today, and this decision had been practically made upon before the conference tonight. Secretary Taft tomorrow will make known which of the decision, and if arrangements are satisfactory to Oliver, he will probably be given several days in which to arrange an agreement with the McArthur-Gillespie Company or some other contractor who can deposit the required cash security.

Oliver refuses to consider the contract after the selection of Bangs, the commission will call for new bids.

WHO BANGS IS.

Anson M. Bangs of New York, Oliver's associate in the canal proposal, was the contractor for the Soo Canals. He is president of the Federal Construction Company of New York which is capitalized at \$2,000,000. Bangs is the brother-in-law of John F. Gaynor of the firm of Bangs, Gaynor & Co. who were implicated with Capt. G. M. Carter in the Savannah, Ga., harbor engineering frauds case. This fact, however, it is said, had no influence with Carter, Carter refusing Bangs as joint contractor with Oliver.

After the adjournment of the Cabinet meeting, today, Oliver left for New York, and it is admitted by his representatives tonight, that he will submit to the Senate his plan to have the Canal Commission to join in submitting a proposal to the canal commission in place of the old bids submitted under the firm name of Oliver & Bangs.

It is said tonight that a compromise arrangement will be worked out by the Canal Commission provided Oliver succeeds in making a satisfactory arrangement with McArthur & Gillespie to pay 9 per cent. of the total cost for the construction of the canal.

The Oliver & Bangs bid was 12.75 per cent., while the McArthur-Gillespie bid was 12.50 per cent.

MORGAN PREPARES SENSATION.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, Jan. 25.—(Exclusive Dispatch.) Senator Morgan of Alabama, by direction of the Senate Committee on Intercoastal Canals, has prepared a bill to the business and financial members of the upper chamber pertaining to the construction of the canal by the Isthmian Canal Commission which is expected to cause a sensation.

The report, which is most comprehensive, was sent to the Public Printer, Monday, and will be ready within a few days. It is bound to give a great mass of information that has come into the possession of the committee since the organization of the Canal Commission. There is so much cumulative evidence against the Isthmian Canal Commission that at last it was determined that the Senate should be made acquainted with the facts in the case.

The report is said to be a most remarkable one, and that will discredit the Isthmian Canal Commission more than anything that has yet been made public.

QUESTIONING OF CROMWELL.

(BY THE ASSOCIATED PRESS—A.M.)

WASHINGTON, Jan. 25.—It is not probable that William Nelson Cromwell of New York will be recalled for examination by the Intercoastal Canal Commission of the Senate in relation to his connection with the Panama Canal project in the United States, even if he should return from Europe before the close of the present session of Congress.

If the bill introduced by Senator Morgan placing the Panama Railroad under the authority of the Canal Commission becomes a law, it would put an end to Cromwell's connection with the railroad as counsel, and this Morgan says, is all he desires to accomplish.

BILLS BY CALIFORNIANS.

KAHN WORKS FOR JUDGEMENT.

WASHINGTON, Jan. 25.—(Exclusive Dispatch.) Representative Hayes will offer an amendment to the Agricultural Appropriation Bill, which was taken up by the House, today, providing for the establishment of an entomological bureau of the Agricultural Department in California. The Bureau of Entomology would be necessary to establish such a station which, Mr. Hayes thinks, ought to be on the Coast to study insects that damage fruit and other crops.

Representative Kahn has promised of recognition from Speaker Cannon, for a bill providing for a new Federal District Judge in California. Mr. Kahn thinks he can get the bill passed without trouble in a few days. In case of the passage of the bill, a Los Angeles man may be appointed.

Senator Perkins today introduced a

bill providing for a Calaveras big-tree national forest in California. The bill sets aside a large tract of public land to be situated on which to grow Sequoia. Washington is to be the place which species the bill's specific purpose is declared to be.

Mr. Perkins introduced a proposed amendment to the Sunday Civil Bill providing for the purchase of the 1,000 acres of grounds in the Presidio reservation, San Francisco, and appropriating \$15,000 for that purpose.

Senator Flint today proposed an amendment to the bill appropriating \$500,000 for the purchase of Rancho del Encinal, property of J. H. Henry in San Luis Obispo County, California, consisting of 23,000 acres, for army maneuvers and camp purposes.

WASHINGTON, Jan. 25.—A long report has been received by Immigration Commissioner Sargent from Commission North at San Francisco regarding the 43 Japanese immigrants who arrived here on the steamer Kuroshio from Honolulu. It disclosed among them there were 13 laborers of the immigrants originally listed to go to Hawaii, as a result of the work of the immigration societies in Japan inducing their immigration.

Advices obtained to the effect that such is the case, the immigrants are not allowed to land. Further information bearing upon the arrivals on the Kuroshio is awaited by the immigration office here.

When the measure reaches the House of Representatives Smith will see what to do with it. He said today that he may decide to accept the Flint bill in toto. If not, he may ask that it be amended slightly, or by substituting the House bill for it. The House, by a vote of 175 to 164, rejected the bill.

Senate voted to amend and postpone action on the bill to increase mileage allowances to House members.

The bill had been passed by the Senate and sent to the House for concurrence.

EXTEND WESTERN UNION.

SAN FRANCISCO, Jan. 25.—[Exclusive Dispatch.] Workmen are about to start from Salt Lake City stringing the Western Union telegraph wires westward along the course of the Western Pacific Railroad.

Five carloads of poles comprising the first shipment arrived in Salt Lake City from Idaho some days ago. Sixty cars are on the way from Michigan.

Already material enough to build 550 miles of telegraph line has been assembled at Salt Lake City ready to start to the miners' camps.

The Western Union ordinarily uses

fourty poles to a mile, but because of

heavy timber along the route and dan-

ger from wind and snowstorms as

well as to the mile will be set in

some sections.

Altogether there are 829 miles of line

to be erected, requiring a total of be-

POLYTECHNIC THE WINNER.

Defeats L. A. High School in Gym Contests.

Spectacular Exhibitions by Both Teams.

Macready Brothers Lead Rival Athletics.

Polytechnic won the Southern California High School gymnasium championship, yesterday afternoon, in her own gym, by defeating the team of the Los Angeles High School by 235½ to 262½ points. Poly takes the pennant with 25 points to the good over the next best team in the league.

The final contest yesterday brought out some beautiful work by the boys on the winning and losing teams. Harry and John Macready, presidents of the rival gym clubs, both did spectacular work in all of the events and kept the schools on edge through the greater part of the contest. At the same time their work did not overshadow that of their team mates, as the exhibition of all the six men who participated in the contest was high class and came in for much commendation from the judges when their decision was announced.

Ten points were taken as the standard in each of the five events. Each of the three contestants on each team did three exercises upon each of the five pieces of apparatus, and his performance was marked down from ten according to the degree that his performance fell from the accepted standard. At the conclusion the total scores of all the competitors were added and the result showed Polytechnic ahead with the lead of 22 and a fraction.

The three men who won the championship for Polytechnic were Harry Macready, captain George Adams and Jack Hart. Ned Manning held down the substitute position. Los Angeles High was represented by John Macready, captain; Wesley Howell and Gordon Boller with Bill Paulin as substitute. The judges of the contest were George Braden, physical director of the Y.M.C.A. at Pasadena; Bestwick of Whittier High School; and Assistant Physical Director Vorhauser of the Los Angeles Y.M.C.A.

The present series of High School gymnasium contests is the first instituted in Southern California, and the contests in uniforms have been successfully run off last week. L. A. High defeated Throop Polytechnic Institute of Pasadena, and Polytechnic High beat the Whittier High School in their own gymnasium last Saturday, the former contest taking place in the L. A. High School's gymnasium.

Polytechnic will hold the championship for one year and as the Southern High School League has recognized gymnasias as an event to be contested annually, Poly will have to defend her title next January.

RICHARDSON THE ATHLETIC STAR.

WINS FIVE FIRST PLACES IN THE FIELD CONTESTS.

U.S.C. Collegiate and Academic Track Men Hold Trial Meet—Parsons, the Old Favorite Sprinter, Shows Good Form—Estoppey Is Beaten in the Mile Run.

The upper-class athletes of the University of Southern California had a hard time beating the prep., who almost carried off the majority of the points in the field day exercises, yesterday.

There was much interest in the dashes, due to the presence of Parsons, the old-time U.S.C. favorite. That he had not lost much of his noted speed was apparent when the result of the race was announced. While the winner showed only 10.2, the performance was not up to his standard, as he loafed most of the way, sprinting only enough to win.

No high marks were made, the performances being mainly due to being up to that of previous practice work; but this was due to the fact that the day was cold and cloudy, and toward evening a fog set in.

The high hurdles race was the prettiest and fastest event of the series. Comstock got off well in the start, and the race was his from the beginning, though this was his first experience in the hurdles. He gained so much in the running that L. A. and the rest could not cut down the distance in the sprint that followed.

Estoppey was expected to show a clean pair of heels to the bunch in the mile run, but ran in a bunch until the last quarter mile when Nordahl and Newmire won in a clean sprint. Estoppey made up for this in the two-mile race, when he "lost" the others, who ran together, and then outdistanced them again, time 9:16, having over a quarter-mile in what was really a race against time. He gained over a quarter-mile in the race between Pantoufe, the winner, and the second choice, Don Hamilton.

Richardson proved by his work that he stands head and shoulders above every other man on the campus. He carried away five firsts. The way he takes a pole vault was a source of admiration to the bleachers.

The events and the records made are as follows:

THREE RIPE NAGS WIN EASILY AT ASCOT PARK.

Fast Time is Made in Several of the Events, but Majority of Races Are for Cheap Horses—Pantoufe and Don Hamilton Furnish Thrills in the Fourth Dash.

Good things were the order of the programme at the Ascot races yesterday and they managed to split the card with the favorites, these being Jack Little at 7 to 10, Pantoufe at 4 to 5 and Treasure Seeker at 11 to 1. The time made was very good in several events, but the day was devoid of features, except the pretty two-horse race in the fourth event at a mile, between Pantoufe, the winner, and the second choice, Don Hamilton.

Pantoufe was expected to show a clean pair of heels to the bunch in the mile race, but ran in a bunch until the last quarter mile when Nordahl and Newmire won in a clean sprint.

Estoppey made up for this in the two-mile race, when he "lost" the others, who ran together, and then outdistanced them again, time 9:16, having over a quarter-mile in what was really a race against time. He gained over a quarter-mile in the race between Pantoufe, the winner, and the second choice, Don Hamilton.

Richardson proved by his work that he stands head and shoulders above every other man on the campus. He carried away five firsts. The way he takes a pole vault was a source of admiration to the bleachers.

The events and the records made are as follows:

Hannmer—throw—Richardson, Haigler, Curl; 100'—.

Mile run—Nordahl, Newmire, Estoppey; 200'—Parsons, Shute, Cooper; distance, 37.3%.

The 100-yard—Parsons, Shute, Cooper; time, 10.2.

High hurdles—Comstock, Lennox; time, 23.04.

The 220-yard low hurdles—Shute, Haigler, Slatter; time, 9.19.

Pole vault—Richardson, Comstock, Nordahl; height, 10.06.

Timers—Holmes, Bridwell, Bovard; judges of jumps—Carnell, Brown, Weitzel, Youngs, Custin, Starter, Holmes.

RACING AT OAKLAND.

HOLTMAN'S WORD CAUSES ROAR.

(BY THE ASSOCIATED PRESS-P.M.)

SAN FRANCISCO, Jan. 25.—Just after the horse that first raced at Emeryville today, Jockey Howard, was thrown from Albie, but escaped injury. Starter Holtman was severely criticized by the crowd for his bad start of the fourth race. He left the start choices, Lazelle, Orchard, and others at the post, and with these out of the way, Crowshad won an easy victory.

Three furlongs: Billy Myers, 112 (Williams) 12 to 5, won; Rhymestone, 109 (Dugan) 6 to 1, second; Irish Mike, 112 (Graham) 15 to 1, third; time 1:24 2-5.

Boss, Oriente, Creation, Sweetums, Boss, Orchid, Creation, Sweetums, Gold, Valentine and Titmus also ran.

BASEBALL MEETING.

Pacific Coast League is to Have Meeting to Consider Seattle and Portland.

Vice-President "Corney" Pendleton and Manager Henry Berry of the Los Angeles Baseball Club went on a hurry-up trip to San Francisco last night to attend some kind of meeting on Pacific Coast League baseball matters. Just what the nature of this meeting will be is not given out, but it is supposed to refer to the threatened loss of Seattle and Portland to the Northwest bush league. As a matter of fact, the first thing for the Coast League if these cities do go back into the bushes, for it will save the California teams the expense of long disastrous trips to the northwest cities.

BAKER VISITS HIS PARENTS.

MAY RETURN SOON TO MEET BENNY SOLOMON.

Second February Date May Be Selected for Return to King of Los Angeles Boy—Nothing Definite is Given Out by Manager McCarey. Sheek in Fine Fettle.

Harry Baker, the clever little featherweight, went to Oakland last night to visit his parents for a few days. It is whispered that Harry has other reasons for slipping back to the Golden Gate region, and that a nice little gold watch (girl's size) will play an important part in the trip.

Baker has two plans in readiness, one contemplated his return to Los Angeles to fight Kid Solomon, and the other will take him East to Philadelphia to meet some of the clever boys in the Quaker metropolis, in six-round bouts.

These plans are contingent on results of the next week or two. If Manager McCarey sees his way clear for giving Kid Solomon a date, then Baker expects to come back to Los Angeles to meet the Bonobtown boy. If the much-coveted contest is delayed, Baker will go East. It is believed the second date in February may be selected for a match.

Those who have been near Kid Solomon say he is doing well now that he is in the city, and that his department can make no mistake by retaining Benny's services, for the little fellow has dug into work like one possessed. He no longer orders his men to do the heavy work; he handles the hard work himself. All the time he means added sinew and strength for the Kid, and when he gets down to business and begins the routine of training he will be in good shape to begin.

There will be some date now that Solomon will be given a match. The order has not yet been given out by McCarey, but the pulse of things along the Rialto beats in time to the Kid's round.

If Baker meets Solomon meet it will be at 125 pounds, as demanded by Baker.

Solomon says he does not mind if they come as big as a house. He proved this yesterday, just before the start of his bout, by strapping 200-pound noseلهـاier attempting to throw the Kid on his back, but the featherweight refused to be thrown, and in return slammed the fellow to the ground.

Sheek's FINE SHAPE.

Frank Sheek is going to give Kid Dalton the battle of his short career when they meet in the ring tomorrow Tuesday night. Sheek swung a hard right and the poor Dalton, the former California champion, lay on the nose, breaking that member. The blow put Dalton to the bad and it will be some time before he is able to get again under his hands making an excellent showing in his work with Sheek, and was learning excellent tactics instead of confining himself to defense.

Kid Dalton is working at the pavilion and is being trained by Montana Kid. The match with Sheek is for \$200 a side. The battle is expected to carry more interest than any other at the show.

[By DIRECT WIRE TO THE TIMES.]

ST. LOUIS, Jan. 25.—[Exclusive Dispatch.] "Brooklyn" Tommy Sullivan today began the task of reducing his weight to 125 pounds for a fight with Attell. His first meal was a long run through Forest Park. Before the run he weighed 125 in running gear; after the run he weighed 121.

Sullivan tonight made to the Times:

Gas Nearly Kills Him.

G. R. Mitchell was nearly killed by escaping illuminating gas in a rooming-house at No. 319 North Broadway yesterday. He was taken to the Receiving Hospital and under observation remained in that state many hours. It is believed the escape of gas resulted from the victim having turned it on, then left the cook open, and fallen asleep through the mains. Mitchell went to the house Saturday and took a room. He is a former soldier, 35 years of age.

Washingtonians Will Visit.

So delighted were the Washingtonians with their excursion to Los Angeles last year that they plan to repeat the visit next year under the auspices of the Tacoma Chamber of Commerce, but representatives of various Washington cities will be in the party, which will arrive here February 15, and will remain one week. The party will go on to the City of Mexico, and return to Los Angeles. Various entertainments will be furnished the visitors during their stay in Los Angeles, and the local Chamber of Commerce will tender them a public reception.

Stanislaus People Coming.

The Stanislaus Board of Trade, 125 Main, will arrive in Los Angeles on Wednesday, 2nd, and a series of meetings will spend several days here. The visitors come to study publicity methods as applied in Southern California. The Los Angeles Chamber of Commerce is tenting to put the public on the right of their arrival and on the following Saturday and Monday will give them excursions to the main points of interest in this vicinity. The excursion will disband at this point, and the members will return homeward as suits their convenience. Some will remain in Los Angeles for three weeks.

No application will be accepted unless properly executed and filed with the commission at Washington.

Two Bankrupt Cases.

Two petitions praying that their filers be declared insolvent bankrupts were presented to the Commissioners of Bankruptcy yesterday. Edgar L. DuBois, a real estate agent and merchant of Long Beach finds that he has liabilities amounting to \$1867 and his assets are \$57 worth of wear and apparel and personal property, on which he claims exemption. W. A. Stine, who for the past four years have been conducting a farming and stock-raising business at Fullerton and Orange, and have assets amounting to \$2786.77, and assets of household goods and wearing apparel for themselves and their wives amounting to \$300, for which they also claim exemption.

State Societies' Joint Meeting.

A new feature in State society meetings is that arranged for Tuesday evening, Jan. 3, at the Hotel Roosevelt. It is to be an union meeting of the Massachusetts, Ohio, Pennsylvania and Texas societies, with portions of the evening's programme furnished by each. The introductions of these societies will be followed by a program by Charles H. Nourse, president of the Massachusetts Society; L. M. Fall, president of the Ohio Society; Frank L. Miller, president of the Pennsylvania Society; Newton Skinner, president of the Texas Society. The programme is to include addresses from Judge Nourse, Gen. L. M. Kirby, Ona W. Morton, and Francis Murphy, and musical numbers from S. W. Reed, Mrs. Henry D. Rossiter and Mrs. Will Lockwood McCollum, and a dramatic reading by Mrs. C. T. Mallott. BIRTHRIGHT IS

Chin Man Can May Lose His
Best Treasure.

Deserts Family for This, His
Native Land.

Powerful Movement on Foot
to Save Him.

If Chin Man Can's story may be believed, Los Angeles will soon behold the unique spectacle of a native son of the Orient, the Chinese Chinatown, on trial, not for his life, but for all he holds dear in life, the right to remain in this country.

Chin Man Can claims that he has never crossed the California border.

Being a citizen of the United States, with a right to vote and a right to the protection of the law, he has regarded this as sufficient guarantee of his right to be in this country, he says, and has never felt the need of a certificate to go to the inspector on the street corner. Hence the dire calamity that is threatening him.

Chin Man Can tells a most interesting story. He is a courteous, well-dressed, good-looking young Chinaman, with more than average intelligence and education. He is a pupil at present at the Washington-street School, while earning his living as a servant. He is 12 years old, and says that he was born in China at that time.

He is a young man who says that he early in life began to take a pride and pleasure in the fact that he is a native-born American. His parents, after living in this country for years, decided to return to the land of their ancestors. Chin Man Can claims that he was 12 years of age. He studied in the Chinese schools of San Francisco, and also in the English-speaking mission schools.

LOVES AMERICA.

This young lover of his alleged native haunts conceived a clever plan. He accompanied his parents and younger brothers and sisters as far as the vessel which was to sail away with them. But he did not embark. He slipped away, he says, went back to Chinatown and hid, and then he started life on his own responsibility.

"My cousin," he said, "lived on Sacramento street, and he had a Chinese

He Shows That Innocence Is

Elmer Harris, playwright, consummate actor, independent thinker and keen psychologist, laid bare the vital springs of life yesterday at the Friedman Studio.

He did what few have succeeded in doing, though many have attempted the task. He explained the master dramatist of the age, Henry Ibsen.

At the close of dramatic reading, where the woman leaves her husband.

"His characters are typical, momentary, fleeting glimpses of his own past, present and future, distorted as through a crystal by this wizard's controlling purpose. Then, too, the inner life, the absence of which we detect in the characters, is there, in the drama, palpable by a word here, a word there, until one is familiar not only with the soul stuff of the characters themselves, but with the psychology of long streams of existence focussed in the medium of the play."

NOTE TAKEN UP.

Sutton organized what is known as the D. J. Sutton Realty Company, in which A. J. Ferrell and Mr. Warren were interested. The company sought to prove up to the early part of this year. Then a note for \$2000 came from Sutton left the city. This note, however, was taken up, and it is said that Mrs. Sutton met the obligation of her husband.

In the meantime a young lady from Salinas came to Los Angeles, and Sutton is said to have been very attentive to her. It is said that the attachment which developed prior to his marriage was renewed, and there was no secret about it.

Then came the crash. It is said that Mrs. Sutton objected to the attention paid by her husband to the young lady, and there were "ructions." A few days after, the crucial moment in the relations of Sutton and his wife developed. Sutton conveniently received a telegram from Buffalo purporting to say that his mother had broken a leg, and would not come right away.

Sutton is said to have shown this message to his wife and partners, but the report is rampant that it had been written on a "sendling" blank, and that it had emanated from Sutton's own office.

Be that as it may, Sutton packed up his belongings and fled his eastward. Since that time his partners have been in a stew, not knowing whether he is coming back or not.

THEY DON'T KNOW.

These gentlemen claim that he is coming back, and in the next moments demand to know what reason there could be for their giving details about something they do not know and only suspect. Then they calmly acknowledge that they fear there may be something wrong. The fact that Sutton was absent and that there was some sort of a cloud over his name came to light a few days ago, and his partners were sought out to ascertain a factor in the case.

A young man named Warren, who has a high brow and pale blue eyes, was the reigning power in the big desk in Sutton's office. He was a nervous condition when seen. His principal job seemed to be to turn away people who asked for Sutton. He said that he had Sutton's address, and that he could reach him at any moment. He was informed of the rumors going about concerning Sutton's wife, and asked to either confirm or deny them. He at first denied it, but a reporter sneaked up and asked him if he had the address of Sutton in Buffalo. Then Warren became uneasy. He refused to say that personal reasons prohibited him from doing so. The man dodged the question a dozen times, and finally floundered hopelessly before his supposed duty to his partner and his desire to tell the truth. For a moment he seemed to be at a loss for words, but then he said, "I can't tell you for certain just where he is." The reporter secured his warrant for the arrest of his husband.

The officers took Kent to the City Jail and he will be arraigned in court today. Kent claims to be one of the leading members of the Union Labor Union and asserted that he would be backed by every member of the union.

WIFE DEFENDS HIM.

Mrs. Sutton was seen at her home, and she could not raise her head from her pillow. Mrs. Kent was found at 1030 South Flower street last night on the charge of battery, and said to be a plot by a Union Labor member of the union to injure her.

Mr. Kent also claims that his husband has treated her with extreme cruelty, although for months she has been unable to leave her bed unassisted.

While she was in a sanatorium a week ago the child was given by Kent to the care of Mrs. F. Borgel, No. 440 East Twenty-eighth street.

The climax came yesterday when a woman said to be Mrs. Borgel, the baby from Mrs. Kent's arms, was seen. The wife was secured and was warned of the arrest of her husband.

The officers took Kent to the City Jail and he will be arraigned in court today. Nearly frantic with grief, and so ill that she could not raise her head from her pillow, Mrs. Kent was found at 1030 South Flower street last night. Her first question was as to the safety of her child. Then she told of what she knew about her husband and some of the labors union friends to take her child from her, and expressed the belief that had not caused Kent's arrest he would have done so and taken the child to some other city.

"Four years ago we went to San Francisco from Chicago," she said. "There my husband became a member of the Marine Union. From that time he seemed to take a dislike to me. He was the Union Labor candidate for Supervisor, but was defeated. About a year ago he began to abuse me more than ever before. Perhaps he was because I learned that the business in Chicago was not the best.

He interviewed, and not one had ever heard of a D. J. Sutton of Los Angeles.

THE PUBLIC SERVICE.

SUMMARY OF THE DAY.

Roberts, Foveaux and McKay reported to the Gas Committee yesterday that the big gas company has a plant and distributing system sufficient to supply a city of 250,000 people; they say the fuel famine is fairly broken.

Stung by wimpish criticism, Inspector Edwards of the Department of Public Works sharply castigated some of his would-be critics yesterday.

Council Attorney Hewitt advised the City Attorney yesterday to recommend to the State Legislature a special annexation bill permitting Los Angeles and San Pedro to unite under a single "freeholders' charter."

Mrs. A. L. Hibben is suing the John B. Bushnell Company for the recovery of stock and damages. Judge Monroe said that if her allegations are true, the case is outrageous.

Mrs. Sanders, the daughter of the late Judge Fitzgerald, will profit by the discovery of a valuable piece of mountain property which had been overlooked when the estate was settled.

Charles Darling, the 16-year-old boy who was accused of being incorrigible, was released on probation by Judge Wilbur yesterday. The court administered a rebuke to the boy's father, and taught the humane officer, who made the complaint against the lad, the meaning of incorrigibility.

C. Meinhardt, a horse trader, and one of his hounds, were arrested yesterday on the charge of resisting an officer. They were put under bonds for their appearance in court today.

The City Health Department scored its first victory yesterday in its crusade against poor sanitary conditions in the Mexican quarter on Utah street. Justice Chambers having overruled demurrers to complaints issued against certain property owners.

Fifteen drivers of express wagons were fined in Police Court yesterday for leaving their horses unattended on the streets, a practice which has resulted recently in several serious runaway accidents.

AT THE CITY HALL.

FUEL FAMINE FAIRLY BROKEN.

COMPANY HAS GAS TO BURN, SAY EXPERTS.

Supply Sufficient for Both Cooking and Heating Even Though Cold Snap Returns. "Whitewash" Crisis Consumers' League—Abie and Impartial Report, Says Mayor Harper.

"There is no longer necessity for a fuel famine in Los Angeles. The Los Angeles Gas and Electric Company is manufacturing enough gas now to supply the entire city with fuel for both cooking and heating."

This is the main feature of the report of Experts Foveaux and Foveaux on the local gas situation. They also aver that the piping system of the gas company is in excellent condition.

"Whitewash" cry the members of the so-called Gas Consumers' League. But Mayor Harper says that he has every reason to believe that this statement of the situation is correct.

"There appears to be plenty of gas at the present time," said the Mayor after reading the report last night.

"The experts tell me that the big gas company is now so equipped that it can supply fuel to the entire city."

Replying to the direct question, "Are you satisfied with the report?" Mayor Harper said, "Yes, I am. I think it so far as concerns statements of fact. But I would like to have seen it more severe with the company for its past misconduct. If they have the gas now, there should like some one to help roast them for not having it two months ago."

The text of the report of the experts still remains a secret. "I have asked them to withhold the report for a day or two," said Mayor Harper. "In order that the verdict may be changed slightly. There will be no change in any of the statistics but it is in such shape that the average reader would not understand it. Yes, I suppose I am editing it."

Privately the Mayor expressed surprise that the report should show the big gas company to be in condition to supply gas to the entire city.

"The experts tell me that the big gas company is now so equipped that it can supply fuel to the entire city."

Judge Monroe stated yesterday that he would overrule the demurser that had been interposed to the complaint, for he wanted the facts to be fully brought out at the trial. He added that if the facts are as charged, more outrageous proceeding was never vented.

ALL HAWAII AWAITS THEM.

Los Angeles Party to Receive a Royal Welcome.

Some of the Things They Will See There.

Islanders Keenly Anxious to Enter This Market.

(SPECIAL CORRESPONDENCE OF THE TIMES.)

HONOLULU, Jan. 16.—The people of Hawaii are looking forward with the greatest interest and pleasure to the arrival of the 300 visitors from Los Angeles, who are expected here about March 1. The excursion will bring by far the largest single party that has ever come to this Territory. They will be uniformly welcomed, shown all the sights in this tropical island section of the United States and be given an enjoyable time as the hospitality of the Hawaiians can devise.

They need not be alarmed in the least at the possibility of accidents or danger occurring through the present activity at the volcano of Mauna-Loa, which a few days ago began an eruption, and first from its cavernous depths reflected in the sky at night, while the flow of lava was accompanied by day as it rolled down a course of thirty miles and into the Pacific. No damage was done beyond the destruction of a small portion of a government road, other sections having been in a sparsely settled district, and the separation of a small area of pasture land. A few light shocks of earthquake have accompanied the outbreak from this mountain, the elevation of which is nearly

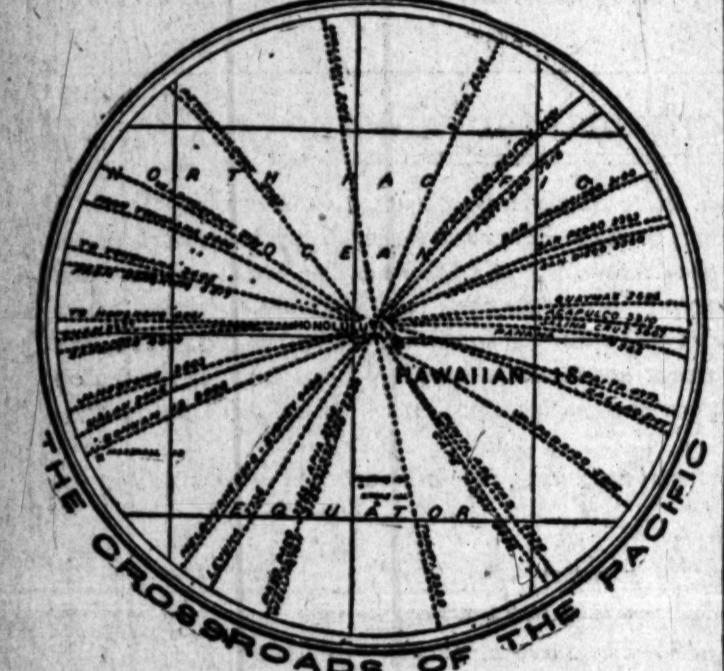

number of Japanese living in the islands. It is estimated that there are now fully sixty-five thousand of the little brown men living in Hawaii, of whom about five thousand were born Japanese, working on the plantations, the remainder being scattered about the centers of population where they are engaged in various occupations. In this way the Japanese, though coming here to the number of several thousand a month, tramp steamers having been chartered especially for the business. These steamers bring about two thousand Japanese on each trip, and one of them arrives every ten days or two weeks. Hundreds also come by the regular Pacific Mail and Japanese lines of steamers. During the past year half of the immigrant there have been 1784 Japanese immigrants landed from three steamers, which a statistician has figured is at the rate of one Japanese for every twelve Americans.

These men are not going to the plantations to work, and it was this fact which surprised Immigration Commission Sargent upon the occasion of his recent visit here. The money all provided with the money necessary to secure them a landing on American territory. After passing the immigration authorities they go to the Japanese hotel in Honolulu, where they remain until a convenient opportunity offers for them to proceed either to San Francisco or to Vancouver. As no record is kept by the immigration authorities of the number of these people who make passage away from the islands it is difficult to give the exact figures, the more especially as the steamship companies are reluctant to furnish the information.

While the Japanese remain in Honolulu they come in contact with agents or runners, who offer them better wages when they reach the States. Of course, the Japanese are bound to leave Japan and the large floating population is continuously drifting, with this as its central point, toward the larger cities on the Pacific Coast. While the Japanese are the chief laborers, it is believed that hundreds are engaged to work on the Northern Pacific railroad extension.

PUBLIC LANDS.

The public lands of the Territory of Hawaii comprise about 1,720,000 acres.

14,000 feet. People from all parts of the Island of Hawaii have been hastening to vantage points to witness a scene that last occurred January 16, 1887.

NEW INDUSTRIES.

Hawaii has generally been known because of its sugar production, but other agricultural industries are now being developed, such as the growth and canning of pineapples, the cultivation of sisal, tobacco, rice and rubber, and other products of the soil in the tropics. Sea salt is important to the sugar industry in the course of these islands. The combined import and export trade aggregated nearly fifty millions of dollars annually, which involves not only a large local retail trade, but the trans-shipment of goods to and from the different islands of the group.

An idea of the financial condition of the islands may be gathered from the fact that during the fiscal year ending June 30, 1901, the total amount paid to the territorial government amounted to \$22,329, while the expenses of government during the same period were \$2,512,57. Sixty years ago the Hawaiian people were independent of all foreign influences and control. The total public revenue was only \$153,242, while the expenses were \$132,122. At both periods there was a surplus of receipts over expenditures, but this has not always been the case in the interim and the Territory now has a bonded debt of \$2,780,000, the proceeds being devoted to public works and improvements.

Sixty years ago the exports of sugar from the Hawaiian Islands amounted to only 150 tons, whereas last year they exceeded 373,000 tons, although the total of last year's crop was 425,000 tons. Prices, however, are now very much lower than they were, due to the annexation of the islands by the United States when the producers had the advantage of a reciprocity treaty which admitted their product into the mainland of America free of duty, and the regular tariff protection that is given to the producers of beet sugar, although the latter have an advantage over the Hawaiians because of their proximity to markets.

EXPORTS AND IMPORTS.

Although Hawaii trades with almost every country in the world, the total of its foreign import and export commerce does not exceed \$1,200,000 a month. From the United States it receives goods worth, on average, a million dollars a month, fully 90 per cent. of which are received from San Francisco via the Sound shipping almost the whole of the remainder. Los Angeles last year shipped to Hawaii goods worth only \$46,300, and these were sent by way of the Panama Canal.

There is no sea route to Salina Cruz, Mexico, the first vessel of a line of Hawaiian-American steamers which will carry nearly 300,000 tons of sugar every year, direct from New York. In this way the line is very much thru the Magellan Straits is reduced by one-half, but the goods, of course, are placed in bond while they are being carried across Mexico, which would be avoided if they were shipped by the much shorter railroad route through San Pedro and thence by direct line to Honolulu, a line which every resident of this Territory devoutly hopes will soon be permanently run, not for both passenger and freight traffic.

THOUSANDS OF JAPANESE.

When the visitors from Los Angeles arrive here they will notice the large

The house crowded, and everything indicating pleasure they felt in the making of the chapel and its institutions, the center of the First Methodist Church present to entertain with friends and addresses were made by Mr. Hartnett, M. M. Davidson, E. C. and Mrs. Mr. Lincoln. Mr. White, superintendent of the Y.M.C.A. conducted the meeting, Mr. Johnson, representing the Y.W.C.A. will be ordained to all the offices. At the close of the services, the men announced to the assembly that Mr. White will be ordained to all the offices. They enjoyed an hour in

PICTURE ON ALASKA.

LEO WILL TALK.
Mr. Leo, a number of whose pictures have appeared in The Times and who is now in this city, will deliver an illustration on Alaska Hall on Friday evening at 8 o'clock. His subject will be: "The Big Game and General Lee." Mr. Lee is a hunter and photographer, has many pictures taken about what he sees. His pictures illustrate Alaskan scenery, the big game, and other interests. He is an intimate friend of Stet Thompson, and after, probably, he has a record as big game. Both sportmen "funds" will find his lecture value, and this will be a pleasure prior to his departure for Alaska. Pictures of the Y.M.C.A. at Bartons Ferry and at the sporting

Patrolmen W. E. Murphy and Harris discovered the fire at about 2:30 o'clock. They managed to rescue six of eleven horses which were in the building, but unfortunately the others were terribly burned. The owners and citizens who took out the horses narrowly escaped serious injuries from the kicking and biting animals about them.

E. Scott owned the building.

The man who was suspected of having set fire to it had come early in the night and had asked for lodgings. It had been refused, and he is said to have cursed when he went away. When the fire was first seen it was burning in several places at the same time.

LEAPS FROM TRAIN.

Boy Temporarily Insane Jumps Through Window of Car in Effort to Escape.

While an inbound Southern Pacific train was running into the Arcade depot last night, Mather Scott leaped through a window in an effort to escape from James Scott of San Diego, his father. A policeman captured the lad and turned him over to his parent. The boy has been out on the desert near Mojave with a mining expedition and became temporarily.

Mr. Menard Brock, primary state department; W. Gordon, state home department; G. A. Boddy of Iowa, and John Brewer of Toledo, district convention speaker, became members of the Christian Association a budget of \$15,000.

A. Bunker of St. Louis gave a lecture on Christian education at 3 o'clock. In addition, under the auspices of the Church of Christ Scientist, the Welsh Evangelists came to convert the revivalist in Congregational Church every another week. He is powerful speaker and singer, and showed a deep interest in the work.

Rev. Gould, pastor of the Welsh Evangelists, will preach on "Soul Winning" at 8 o'clock.

Mr. Scott, president of the Sunday-school Association of Los Angeles county, spoke at the following afternoon.

Mr. Menard Brock, primary state department; W. Gordon, state home department; G. A. Boddy of Iowa, and John Brewer of Toledo, district convention speaker, became members of the Christian Association a budget of \$15,000.

A. Bunker of St. Louis gave a lecture on Christian education at 3 o'clock. In addition, under the auspices of the Church of Christ Scientist,

the Universalist Church will be celebrated on Monday evening at 8 o'clock.

Mr. Scott, president of the Sunday-school Association of Los Angeles monthly meeting at Third and Hill, as soon as the need arises, will be held there. The monthly meeting at the Calvary Methodist Church last night decided, to the contrary, to postpone the contest, to surrender the property to the Los Angeles monthly meeting.

The Guggenheims.

LEAP OF A FAMOUS FINANCIAL FAMILY INTO POLITICS—FOUR MILLIONAIRE BROTHERS AND THEIR MANY VENTURES.

[SPECIALLY CONTRIBUTED TO THE TIMES.]

GUGGENHEIM. Little more than half a century ago the name was unknown in the United States. Now seven brothers, all millionaires, the greatest money earning family this country has ever known, are making the news daily, and one of them, Simon Guggenheim, has gone to go into the United States Senate, replacing Senator Patterson of Colorado.

Simon will be the first member of the famous New York family to desert business for a public career. None of the others have had similar aspirations.

Their father, brave old Meyer Guggenheim, who came to the United

national convention that nominated McKinley, Guggenheim was nominated for Lieutenant-Governor on the ticket of the Silver Republicans. Two years later he was offered the nomination for Governor, and both names were certain of election; for not a corporal's guard could have been mustered against the silver ticket, but he refused both times, saying that he had no ambition to go into politics.

In the recent Republican landslide in Colorado, it was understood that if the Republican Legislature was chosen Guggenheim should be the Senator.

The triumph of Guggenheim and a majority of forty-four being returned, a man not elected was ever more certain of wearing the togs than Guggenheim.

WERNER GUGGENHEIM. Their father, brave old Meyer Guggenheim, who came to the United

States an immigrant, and peddled shoe polish on the street in order to make a living, first for himself, then for his wife and increasing family, knew only business and philanthropy, and trained his sons along the same lines, but unfailingly loyal to a commercial life. Simon, however,

and Simon made quite a battle before he yielded. It is a curious circumstance that though a member of the smelting trust, political honors have been thrust upon him, the brother of Populism, and hated of all that pertains to Wall street.

He went there first because the extensive families of himself and his brothers in the West demanded that they have a representative on the scene.

Simon was a good mixer. In spite of his trade affiliations, he found himself popular in a short time. His public office was actually pursuing him.

No other trust magnate ever succeeded in overrunning the Colorado anti-trust committee.

It is folly to say that his success resulted from money alone. A Rockefeller, for example, could spend probably every cent of his fortune in the pursuit of pleasure, yet still be a millionaire, records similarly achieved by the seven sons of Meyer.

Only a few months ago Wall street rang with the wonderful story of how the "American Rothschild," Meyer Guggenheim, had reluctantly shouldered a loss of one and a half million dollars, dropped in Nipissing Cobalt, rather than permit outsiders, who had been instrumental in exploiting the business, and the name of the firm became known all over the country.

He prospered, and embarked in the importation of lye. This venture also succeeded, and he became a millionaire with a resulting big profit.

Then he put into reality a dream to import lace made by the peasant folk of his native Switzerland. Soon he was giving away lace, and the broderies, and the name of the firm became known all over the country.

A bad debt forced him to take some mines near Leadville. Two of his sons went out to look over the properties, returned imbued with the idea that they could be made to yield a big profit. Like everything touched by this wonderful family, they did.

First Meyer Guggenheim peddled shoe polish, then he bought the patent for the shoe polish, and went into the manufacturing business in a small way.

He prospered, and embarked in the importation of lye. This venture also succeeded, and he became a millionaire with a resulting big profit.

EXALT BURNS AT THE FEAST.

ADMIRERS OF SCOTCH POET HOLD BANQUET.

Pasadena Gathering is Attended by a Hundred and Fifty People and Evening is Made Up of Continuous Round of Wit and Eloquence—Jell for Child-Buster.

of The Times, No. 28 Raymond Ave. PASADENA, Jan. 24.—One of the social functions of the year was the banquet given by the Robert Burns Society, given last night at Hotel Maryland, to commemorate the birthday of the bard of Scotland. One hundred and fifty admirers of the canny Scot sat at the dinner tables and the evening was made up of one continuous round of wit and eloquence.

The tables in the banquet room were decorated with carnations and amaranth, the flowers being scattered about the table in a most artistic manner. Joseph Welch acted as chairman of the evening and upon him devolved the task of introducing J. Buchanan, the toastmaster. The following toasts were responded to: "Robert Burns," Mr. Rodger, bartender; "John Burns," Dr. Garret Newkirk; son of J. H. McPherson; Burns address; Seward A. Simons; "Tom O'Shanter"; Joseph Welsh's "Speech"; Fred Stewart Seeley. POSOWICH REMOVED.

February 5 has been set aside all day upon which the postoffice will be moved from its present quarters on Colorado street to the new home on Raymond avenue. Delays, owing to the non-arrival of furniture and to other causes, forced several postponements of the moving date, but it was decided yesterday that everything was now in readiness, and that the move would be made as announced.

FLOWER TELEGRAM BUSY.

The work of pruning trees and trimming shrub in the city parks is now under way, and the force of municipal workers has been increased to meet the task. The late rains caused much trouble, and the force of workmen is kept continually busy keeping the flower beds free from debris. Although the cold weather had a bad effect on the more delicate plants, but little damage was done and the city playgrounds are again assuming their former appearance.

External vigilance is demanded of the park employees if they are to keep the gardens in any sort of shape, as the temptation to pick flowers is more than that of the visitors can resist. Signs are placed everywhere to get the gardeners state that they have to keep a close watch in order to see that the beds are not completely stripped of their blooms.

JAIL FOR CHILD BEATER.

Mary Oresco of Lamanda Park was brought before Justice Klemroth yesterday morning charged with the charge of having cruelly beaten the year-old child of Ramon Surra. All the persons concerned in the trouble are Mexican and there seemed to be a difference of opinion as to what had caused the disturbance. There seemed to be no doubt as to the guilt of the defendant, however, and she was sentenced to serve thirty days in the County Jail.

The arrest was made late Thursday night by Constable Austin on information supplied by the Lamanda Park.

The Oresco woman was brought to Pasadena and locked in the City Jail while the lad in question was given medical attention. Investigation disclosed the fact that little body was a mass of bruises and a criminal complaint was the result.

MISS OSBURN TO SPEAK.

Catherine Osburn, matron of the Blackmer Home of the Universalist Mission at Tokio, Japan, arrived here yesterday and is staying with Mr. and Mrs. B. O. Kendall. Miss Osburn is on her way to St. Louis, her old home, where she will remain the coming year, resting from the arduous duties of her office before returning to the land of the Mikado.

The Blackmer Home is an institution maintained by the Universalist church members. It is a home for girls from lives of slavery and to bring them up according to Christian ideals. The work of the home has been successful under Miss Osburn's management, but the effects of mission is a wearing one and finally it becomes necessary to temporarily relinquish command and take an extended vacation in this country.

This evening Miss Osburn will hold an informal reception at the Universalist Church, where many friends and admirers may have a chance to meet her. Mr. and Mrs. B. O. Kendall have arranged to give a talk on their travels in Japan, using stereoscopic slides in illustration. Miss Osburn will speak on the work of the home, which the Blackmer Home is doing and an interesting evening is promised.

An invitation has been issued to all who are interested in Japan and the mission work being done there to be present at the church and meet Miss Osburn.

BEARD CASE DISMISSED.

J. E. Beard of Mt. Wilson, the man who threw a stick of dynamite at a party of men who were snowballing him last Sunday, was yesterday discharged from custody on motion of the prosecution and the case against him was dismissed. The defense argued that a stick of dynamite was not explosive and could not therefore be considered a deadly

weapon.

At the meeting of the Shakespeare Club, last Saturday evening, a speech will be given by the Galpin Shakespeare Club of Los Angeles. The programme will include the trial scene and the scene from "The Winter's Tale."

Miss Georgia A. Avery, daughter of Mrs. Mary A. Avery of Redlands, was quietly married in Los Angeles Thursday to Simon W. Riles, of No. 173 South Grand Avenue, in Los Angeles.

Mrs. Robert Rowan of South Grand Avenue was the hostess Thursday at a daintily-appointed dinner, at which covers were laid for twelve.

Mr. and Mrs. Kenly Warren of the North Orange Grove avenue, as well as their two sons, will leave today for a holiday luncheon at 1 o'clock.
